

MaineDOT Traffic Alert

MaineDOT is replacing the Stanley Brook Bridge, adjacent to the beach, in Seal Harbor. In order to complete the work as quickly as possible, there will be a full closure of the bridge and the approaching roadway during September and October.

- **Monday, August 29th-**
Work begins but with very little impact to motorists or residents.
- **Tuesday, September 6th-**
Beach Parking Area closed until Thanksgiving. There will be alternating, one-way traffic in this vicinity on Route 3. Expect delays.
- **Between September 10th and October 30th-**
Route 3, spanning the Stanley Brook Bridge, will be closed for 35 consecutive days. Traffic will be detoured onto Stanley Brook and Jordan Pond Roads which wind through Acadia National Park.
Please note - there is a low-clearance bridge along the detour route so R.V.s and tall vehicles should plan ahead or follow the signs redirecting them.
- **October 30th-November 15th-**
The contractor may be paving, depending on the weather. The final paving may take place in the spring of 2012.

We regret this inconvenience and encourage motorists to allow extra time and drive with caution along the detour route.

Thank You.
